

# TIBCO Spotfire Educational Services

SP1910 (Webinar) TIBCO Spotfire for iProcess

This webinar complements our standard Spotfire training courses. In particular, it should be taken after SP121 Spotfire Essentials I and SP131 Spotfire Essentials II. It covers the use of the iProcess template which ships with the software bundle called **TIBCO iProcess Spotfire**.

TIBCO iProcess Spotfire uses next generation business intelligence software to deliver process reporting and analytics that enable business users to report on, analyze, and evaluate business processes. This provides insight into the performance of processes and the knowledge to continuously improve them.

An easy-to-use reporting and analytics dashboard provides an intuitive user interface with rich visualization options to enable business users to quickly view and comprehend process data and high-level business metrics, then delve deeper to analyze trends and perform root cause analysis.

## Course Materials

This course uses Spotfire Education's "Blended" learning model, which means that in addition to a live **2-hour** webinar with a professional instructor, you gain access to a series of eLearning modules for a period of **30 days**. These modules are delivered via the popular **Moodle** system and includes a presentation with a recorded voice-over, quizzes, recorded demos showing how to use the template in real-time, and exercises built using the Spotfire Professional client software.

## Pre-Requisites

- SP121 TIBCO Spotfire Essentials I
- SP131 TIBCO Spotfire Essentials II

To book a course please visit:-
